<b>Y3#9</b>	This TA's goal was to bring together as many of the key participants in mental health services in Mississippi as possible to discuss how the ACT model would work in Mississippi. It was decided that this would best be handled by having a consultant from a state similar to Mississippi who had hands on experience in implementing the ACT model.	<b>MS</b>	Dec. 4. 06
<b>Y3#10</b>	The overall goal of the technical assistance collaboration was to provide Pennsylvania information about developing, implementing, and monitoring ACT programs that would conform to the fidelity standards.	<b>PA</b>	2.21-23.07

<b>Y3#11</b>	Technical assistance was provided in support of NAMI Louisiana's Crisis Intervention Training program. With CIT currently being implemented in four areas of the state, Louisiana is most interested in expanding CIT by making it available in the New Orleans, Baton Rouge, and Lafayette regions. These three areas received the most damage and evacuees following Hurricane Katrina. With one-third of the Medicaid rolls and Office of Mental Health rolls living in New Orleans prior to this storm, those evacuated to these cities include many people with disabilities and mental illness. As a result, these communities and their public services are stressed beyond capacity. To further LA CIT efforts, NAMI Louisiana hosted a trip for the 18 person Baton Rouge CIT Team to Memphis for a three-day interactive demonstration of the CIT model in February 2007. This group has started a CIT implementation plan in Baton Rouge. The hope is that CIT will be statewide in the next two years.	<b>LA</b>	Feb. 7-9. 07
<b>Y3#12</b>	Decision-makers in Kansas learned in detail about ACT from a consultant in a nearby state that has a similar mix of rural, urban, and sub-urban communities and has implemented ACT in all of those environments. The consultant addressed how this initially urban model can be implemented in smaller communities and rural areas.	<b>KS</b>	April. 27. 07
