“(C) Rules of application.—

“(i) Budget neutrality requirement.—In determining the appropriate percentages by which to adjust States’ target per capita medical assistance expenditures for a category and fiscal year under this paragraph, the Secretary shall make such adjustments in a manner that does not result in a net increase in Federal payments under this section for such fiscal year, and if the Secretary cannot adjust such expenditures in such a manner there shall be no adjustment under this paragraph for such fiscal year.

“(ii) Assumption regarding state expenditures.—For purposes of clause (i), in the case of a State that has its target per capita medical assistance expenditures for a 1903A enrollee category and fiscal year increased under this paragraph, the Secretary shall assume that the categorical medical assistance expenditures (as defined in subparagraph (D)(ii)) for such State, category, and fiscal year will
equal such increased target medical assistance expenditures.

“(iii) Nonapplication to low-density States.—This paragraph shall not apply to any State that has a population density of less than 15 individuals per square mile, based on the most recent data available from the Bureau of the Census.

year bears to the whole year) divided by the Federal average medical assistance percentage for the year or portion of a year.

“(iv) Review.—If the Secretary makes a payment to a State for a fiscal year or portion of a fiscal year, the Secretary shall, not later than 6 months after the declaration described in section 1903A(b)(6)(A)(i) ceases to be in effect, conduct an audit of the State’s targeted health assistance expenditures for program enrollees during the year or portion of a year to ensure that all of the expenditures for which the additional payment was made were made for the purpose of ensuring that the health care needs of program enrollees in areas affected by a public health emergency are met.

“(4) Determination and Publication of Block Grant Amount.—Beginning in 2019 and each year thereafter, the Secretary shall determine for each State, regardless of whether the State is conducting a Medicaid Flexibility Program or has submitted an application to conduct such a program,
